WORK EXPERIENCE

- 12/2025 – Present

Actuarial Data Analysis

Mega Life

 - **Automated** actuarial reserve calculations for **life , credit, mortgage, and compulsory insurance against occupational disability caused by workplace accidents and occupational diseases** using **Python, SQL, and Excel, Excel VBA** significantly reducing turnaround time for **Central Bank regulatory journals, Form 9, and reserve reporting** while improving accuracy.
 - Built an interactive **Flask-based web dashboard** with **HTML, CSS, and Python** to visualize actuarial liabilities, policyholder data, and reserve outputs in real time, enabling faster monitoring and reporting across multiple insurance products.
 - Streamlined actuarial data workflows by migrating legacy analyses into scalable Python-driven processes, helping **product actuaries** complete work that previously took **2–3 weeks** in a much shorter time and providing **Sales** with data to support **cross-selling analysis**.
- 09/2025 – 12/2025

Junior Actuary Specialist

Mega Life

 - **Performed mathematical calculations of insurance reserves** for life, death, and survival benefits, ensuring financial stability and regulatory compliance.
 - **Analyzed mortality, survival, and policyholder data** to support accurate estimation of premium reserves and future insurance liabilities.
 - **Supported premium and reserve valuation processes** through detailed data analysis, policy monitoring, and actuarial documentation
- 07/2025 – 09/2025
Baku, Azerbaijan

Statistics and Machine Learning instructor with SPSS

Data Science Academy

 - Taught statistics and ML to 20+ students using real-world datasets.
 - Delivered 5+ SPSS workshops on applied data analysis.
 - Mentored 5+ students in econometric modeling projects.
- 07/2025 – 09/2025
Baku, Azerbaijan

Data Science Intern

QSS Analytics

 - Cleaned and validated 10+ datasets for analysis.
 - Performed EDA that uncovered 2 major business trends.
 - Assisted in ML models, improving forecasts by 15%.
- 06/2024 – 08/2024
Baku, Azerbaijan

Econometric Research Intern

Ministry of Labour and Social Protection of the Population

 - Analyzed 10K+ labor market records to support policy.
 - Extracted 5 key insights for social protection reports.
 - Collaborated with a 5-member team on welfare research.

EDUCATION

- 04/2026 – Present
Baku, Azerbaijan

Artificial Intelligence Engineer

AI Academy
- 09/2025 – 06/2027
Baku, Azerbaijan

Master of Science in Econometrics

Baku State University

02/2024 – 07/2024 **Bachelor of Science in Economics**
Kayseri, Turkey *Abdullah Gul University*
CGPA (3.50)
• Exchange student

10/2020 – 06/2025 **Bachelor of Science in Economics**
Baku, Azerbaijan *ADA University*

ACTIVITIES & AWARDS

12/2025 **Analyze Data with SQL Skill Path**
Codecademy
Advanced proficiency in SQL data analysis, including the construction of complex multi-table joins, aggregate data modeling, and the optimization of relational database queries for data-driven decision making.

08/2025 **CFA Institute Investment Foundations® Certificate**
CFA Institute
Completed a global program on financial markets, instruments, ethics, and ESG, taken by 70K+ professionals worldwide

06/2025 **A/B Testing in Python**
Udemy
Designed and analyzed 5+ experiments to optimize business metrics using Python

06/2025 **The Complete Market Research Bootcamp**
Udemy
Conducted 3 survey-based projects and applied quantitative/qualitative frameworks to generate insights

05/2025 **Microsoft Office Specialist Expert (MOSE)**
Microsoft
Scored 810/1000; mastered advanced Excel tools, including Advanced Excel, Modeling, Pivot tables

12/2023 **Collaborative International Learning Project, Participant**
ADA University and Coventry University
Evaluated a corporate bond listed on the London Stock Exchange with a **4-member team**, presenting investment recommendations

11/2021 **Certificate of Completion, Student**
ADA University
For successfully completing the Upper-Intermediate / B2 level in the English for Academic and Professional Purposes Program.
